

ALOR

Designed for when every element matters. Pairing unparalleled durability with meticulous craft to ensure perfection in even the smallest of details.

Forté

## COLLECTION OVERVIEW

The Alor Collection is underpinned by a simple belief: that precision isn't simply a guiding principle, but the foundation of design excellence.

Every specification, every cut, and every finish is meticulously refined, ensuring perfection is achieved in even the smallest of details.

Crafted in Europe, Alor is a premium range of prefinished timber veneer panels, designed to harmonise effortlessly with our wider spectrum of timber surfaces. The collection was developed with designers, architects and makers in mind, providing the tools to achieve spaces that feel cohesive, elegant and uncompromising in quality.

Each panel is engineered for both beauty and performance, offering unparalleled durability through a UV-cured lacquer finish, a carefully curated selection of premium timber species, and our innovative Duo Hybrid Edging for enhanced protection. With Alor, every element of your project works together seamlessly, allowing you to bring bold visions to life with precision and confidence.

## KEY FEATURES

### Uncompromised Durability & Consistency

Crafted with a UV-lacquer finish, Alor offers unparalleled durability and reliable colour consistency, ensuring the tones you select are faithfully carried through from concept to completion.

### Revolutionary Duo Hybrid Edging

Our Duo Hybrid Edging combines the authentic beauty of real timber veneer with the strength of ABS backing to provide an innovative and resilient solution to the edges of Alor veneer panels.

### Curated Timber Selection

For each colour in the Alor collection, we have curated the most suitable timber species, cuts, and grades to showcase the timbers' natural beauty and best characteristics.
