

LOFT

TIMBER FLOORING

Inspired by iconic lofts and robust commercial spaces. Crafted to meet the demands of high-traffic areas with its durable and low maintenance finish.

Forté

COLLECTION OVERVIEW

Step into the energy of the big city.

Inspired by the iconic lofts and bustling commercial spaces of New York City, the Loft Collection is engineered for a balance of resilience and sophistication, ensuring it can meet the demand of high-traffic areas while retaining a crisp elegance.

With rich colours and captivating textures, the Loft Collection echoes the diverse architectural styles of the five boroughs – from the warm hues of Brooklyn's heritage brownstones to the steely tones of Manhattan skyscrapers. Purpose engineered for exceptional durability, it features a commercial-grade matte finish and a smooth, low-maintenance texture that can be sanded and recoated as use demands. Whether your vision is a dynamic office, slick showroom or chic multi residential build, Loft will help bring it to life with enduring strength and lasting beauty.

KEY FEATURES

Sustainable Construction

With a 2mm wear layer that can be sanded, the Loft Collection is designed for longevity. The eucalyptus ply core and alder wood backing provide stability and support.

Cost Effective

The collection is priced to give you access to Forté quality at our most accessible level, making it the perfect first step into premium timber design.

DuraMatte Finish

The Loft Collection features UV Cured DuraMatte Lacquer, delivering a commercial-grade matte finish that combines elegance with exceptional durability. This combined with its enhanced performance make it suitable for both residential and commercial applications.
