

MODA

Combining the grace of nature and the precision of modern innovation. Embracing the natural elegance of timber to create a durable foundation for living.

Forté

COLLECTION OVERVIEW

Crafted for spaces that value both elegance and durability, the Moda collection balances timeless beauty with modern performance.

Inspired by the refined simplicity of contemporary European design, it features an ultra-matte finish that captures the natural warmth and texture of raw, oil-treated timber, with an advanced water-resistant barrier that enhances everyday durability without compromising on look and feel.

Crafted from sustainably sourced European Oak, each board is engineered with a high-performance plywood core to ensure long-lasting strength and stability underfoot – whether in a high-traffic commercial setting or a serene residential retreat. Subtle grain patterns, muted hues and a velvety matte surface set the scene for interiors that feel grounded, cohesive and effortlessly sophisticated.

Offered in an extended palette of colours – ranging from soft, sun-washed neutrals to deep, moody tones – Moda has been thoughtfully designed to complement a wide range of interior styles while maintaining a signature balance of versatility and distinction.

KEY FEATURES

Extensive Colour Range

With a variety of colour options and a choice of feature or light grade, Moda offers the flexibility to suit a wide range of spaces, styles, and both residential and commercial projects.

Enhanced Water Resistance

Moda's high-performance UV lacquer includes an improved water-resistant barrier, offering superior protection against spills and splashes.

Enhanced Value

Moda delivers Forté quality in a well-balanced mid-price option – offering competitive value for a 15mm timber plank and an easy first step into premium timber design.
