

RIDGE

TIMBER FLOORING

Inspired by the raw ridges of earth and natural expression. Bold band-sawn texture and rustic oak grain create surfaces with depth and handcrafted appeal.

Forté

COLLECTION OVERVIEW

The Ridge Collection was created for those who love the honesty of raw timber and the character it brings to a space.

Inspired by the marks left by traditional saws, each plank tells its own story – saw lines etched across the grain, knots and cracks proudly on display. It's a surface that feels storied and lived-in from the moment it's laid.

While its finish is rugged and expressive, construction is refined and dependable. A high-performance core ensures stability, while a UV-cured ultra-matte lacquer preserves the natural look of oak with protection built for everyday life. The result is flooring that thrives in busy homes and commercial spaces alike, wearing its imperfections with pride while concealing the traces of daily use.

By pairing authentic character with enduring strength, the Ridge Collection brings a sense of texture, warmth and narrative into modern interiors.

KEY FEATURES

Affordable Pricing, Premium Quality

The Ridge Collection combines premium oak with durable construction in narrower planks and a thinner veneer, delivering an affordable yet reliable flooring solution that balances style, performance and long-term value.

Authentic Timber Finish

Ridge pairs rustic-grade oak with a distinctive band-sawn texture that highlights natural knots, cracks and saw marks. It creates a bold, authentic aesthetic that adds warmth, depth and character to any space.

Effortless Maintenance

A brushed, band-sawn surface minimises dust and wear visibility. With texture that conceals everyday use, the Ridge Collection is a practical, stylish solution for busy homes and high-traffic commercial environments.
