

TIMBER PANELLING

Tactile

Offering a saw-marked finish and expressive tones. Deep grain and distinct tactility transform spaces into sensory experiences.

RESPONSIBILITY AND DISCLAIMER

Important Information - Read before specifying.

This Specification Sheet is provided as a general reference to assist architects, engineers and other building professionals. It has been developed based on the testing conducted by Forté on the Forte Timber Interior Panelling System and the knowledge and consideration of the current construction practises being followed in the industry. It is not an exhaustive specification.

The specifier (or other party responsible for the project) must:

- Verify that the Forte Timber Interior Panelling System is suitable for the intended use and site conditions.
- Ensure the final design complies with the New Zealand Building Code (NZBC) and all other applicable laws and standards.
- Complete any additional detailing required for aspects outside the scope of this guide. Advice on this is available from Forté.

Failure to comply with the above, or to use the most up-to-date technical literature, may compromise the Forte Timber Interior Panelling System performance, breach statutory obligations and void the Forté product warranty.

Responsibility for the design lies with the specifier or responsible party for the project to ensure the final design meets the requirements of the intended application and the New Zealand Building Code (NZBC).

Limitation of Liability

Except for the express terms of any written Forté warranty that cannot be excluded by law, Forté disclaims all warranties, conditions and liabilities (whether direct, indirect, consequential or otherwise) arising from the use of, or reliance on, this document. To the maximum extent permitted by law, Forté is not liable for loss, damage or injury whatsoever resulting from such use or reliance. Independent professional advice should be obtained for any design matters not expressly covered here.

OVERVIEW

Designated Building Product: Class 1

DECLARATION Forté has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product Use Limitations

Forté Interior Timber Panelling is a non-structural engineered panelling system for use internally as a decorative, non-structural wall or ceiling lining.

For more information on limitations of use, please refer to the [Forté Interior Timber Panelling PASS](#)

SPECIFICATIONS

Construction	
CONSTRUCTION	Multilayer Engineered
WEAR LAYER	4mm Solid European Oak
CORE	Plywood
JOINT PROFILE	Tongue and Groove (4 Sides)

Accreditations	
SUSTAINABILITY	Sustainably Sourced
BPIR COMPLIANT	Yes

Characteristics	
SURFACE TEXTURE	Heavily Sawn
SURFACE FINISH TYPE	Prefinished Natural Oil
SURFACE SHEEN LEVEL	Matte

Pack Information	
PIECES PER PACK	4-5 Full Planks + 1-2 Split Planks
% OF SHORTS	Up to 25%
M2 PER UNIT	3.168m ²
UNIT WEIGHT	30.001kg

PROFILE

COLOURS

LOFT WHITE

EBONY

PRODUCT SPECIFICATIONS

COLOUR	FORMAT	GRADE	CODE	DIMENSIONS (MM)	WEAR LAYER SPECIES	COLOUR VARIATION	FILLER COLOUR
Ebony	Plank	Rustic	TA-ERSP	15/4 x 240 x 2200	European Oak	Subtle	Charcoal
Loft White	Plank	Rustic	TA-LWRSP	15/4 x 240 x 2200	European Oak	Subtle	Charcoal

GRADE

Rustic

Rustic grade timber embraces the raw beauty of wood, featuring large knots, open cracks, and significant colour and grain variation. This grade captures the timber's natural essence, offering a more rugged texture and bold, organic aesthetic. Knots and cracks may be filled, creating a strong, character-driven look that brings depth and authenticity to any environment.

COLOUR VARIATION

Subtle Colour Variation (Darker Colours, Prime and Light Feature Planks)

Darker colours, as well as prime and light feature planks, tend to have less colour variation. This is because the darker stains tend to mask any natural variations, creating a more uniform look across the planks. Prime and light feature planks are generally cleaner, with fewer natural imperfections or markings, making them more consistent in colour once the stain is applied. As a result, the overall appearance presents minimal differences between planks.

CARE & MAINTENANCE

LACQUER-FINISHED TIMBER PANELLING

DAILY CLEANING

Dusting
Use a microfiber cloth to gently dust the surface. This helps prevent the accumulation of dirt and grime.

Spot Cleaning
For minor smudges or fingerprints, lightly dampen the microfiber cloth with water and a small amount of mild dish soap. Wipe the affected area and immediately dry with a clean, dry cloth.

OCCASIONAL CLEANING

Deep Cleaning
For more stubborn stains or accumulated grime, use a solution of warm water and a few drops of mild dish soap. Dampen a microfiber cloth with the solution, wipe the surface, and then dry immediately with a clean cloth.

Avoid Harsh Chemicals
Do not use abrasive cleaners, ammonia-based products, or any cleaners that are not specifically designed for lacquer finishes, as they can damage the surface.

PRECAUTIONS

Avoid Excess Moisture
Never allow water to pool on the lacquered surface, as prolonged exposure can cause damage.

Test Cleaning Solutions
Always test any cleaning solution on a small, inconspicuous area before applying it to the entire surface to ensure it does not affect the finish.

CARE & MAINTENANCE

HARDWAX OIL-FINISHED TIMBER PANELLING

DAILY CLEANING

Dusting
Use a soft microfiber cloth to dust the surface regularly. This prevents the buildup of dirt and maintains the wood’s natural appearance.

Light Cleaning
For minor spots or fingerprints, lightly dampen the cloth with a mixture of warm water and a small amount of mild dish soap. Wipe the area and dry immediately with a clean, dry cloth.

OCCASIONAL CLEANING

Deep Cleaning
For more stubborn stains, use a solution of warm water and a few drops of mild dish soap. Dampen a cloth with the solution, clean the area, and then dry immediately.

Maintenance Oil Application
Periodically apply a maintenance oil specifically designed for hardwax oil finishes to nourish the wood and maintain its protective layer.

PRECAUTIONS

Avoid Harsh Chemicals
Do not use abrasive cleaners or ammonia-based products, as they can strip the protective oil layer and damage the wood.

Regular Maintenance
Regularly apply maintenance oil to keep the wood hydrated and to maintain its protective layer.

CARE & MAINTENANCE

GENERAL CLEANING TIPS FOR BOTH FINISH TYPES	Use Appropriate Cleaning Tools
	Always use soft, non-abrasive cloths or microfiber cloths to avoid scratching the surface.
	Avoid Excessive Moisture
	Never use soaking wet cloths; always ensure the cloth is damp, not wet, to prevent water damage.
	Dry Immediately
fter cleaning, always dry the surface immediately with a clean, dry cloth to prevent moisture absorption.	
Regular Maintenance	
Regular cleaning and maintenance will prolong the life of the timber panelling and keep it looking its best.	
NOTE	
For specific product recommendations or personalized cleaning programs, especially for commercial projects, please contact our aftercare team at support@forte.co.nz .	

STRUCTURAL WARRANTY

Residential	Tactile 25 Year Residential Structural Warranty The Tactile Collection comes with a full 25 year Residential Structural Warranty. For full warranty T&Cs, please visit www.forte.co.nz
Commercial	Tactile 10 Year commerical Structural Warranty The Tactile Collection comes with a full 10 year Commercial Structural Warranty. For full warranty T&Cs, please visit www.forte.co.nz
