# Herringbone Profile

## ARTISTE REFINED HERRINGBONE

---

Plank is tongue and groove on all four sides. Product supplied in right and left planks.

## ARTISTE REFINED – FEATURE GRADE

---

An Artiste Refined feature grade plank will contain natural colour variation. This grade allows for frequent, large knots and sapwood may be present throughout the planks. Cracks and checks should be expected and are finished with a dark shade of filler.

## SMOKED EUROPEAN OAK

---

Smoked or fumed timber has been treated to alter the colour depth and tonal variation of the wood. To find out more, visit [forte.co.nz/advice/what-is-smoked-timber](https://forte.co.nz/advice/what-is-smoked-timber)

## REACTIVE STAIN

---

Reactive stains are used to create an aged look in new timber. They essentially replicate the oxidation processes that occurs naturally in wood when it is exposed to the elements. To find out more, visit [forte.co.nz/advice/what-is-a-reactive-stain](https://forte.co.nz/advice/what-is-a-reactive-stain)
