## COLLECTION

Inspired by objects that have been treasured, preserved and enjoyed for generations, Artefact is our new premium timber flooring collection that sets the standard high for unique timber.

Artefact's high-end reactive stain is carefully applied to each plank, permeating the surface to create a dramatic and sophisticated plethora of natural colours. Each Artefact plank is vastly different from the other and creates an irreplicable look once laid.

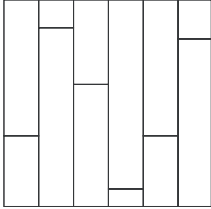

Sourced and crafted in Poland, the Artefact collection's colour and grain variation are not to be missed.
